Residents of Laguna Woods Village to Thank Staff with Flowers

The Community Civic Association of Laguna Woods Village along with a host of clubs, groups, residents, and companies serving the community will deliver bouquets of red carnations on Dec. 16 to say "thank you" to the employees of the Village for what their service to the residents of the Village.

Laguna Woods Village is a resort-style gated community for active adults located just minutes from the Laguna Beach coastline. The Village is home to nearly 18,000 residents aged 55 "or better."

The Staff at the Village are responsible for maintaining 12,736 homes, dozens of amenities, and ensuring the security of the community. More than 70 clubs, organizations and service providers made monetary contributions to purchase the flowers and cards for the Staff. With nearly 1,000 employees at the Village, this was no small contribution!

Resident volunteers will personally pass out the flowers and thank you cards to the Village employees. Flowers will also be given to public employees, such as the fire department. The Thank You Day event will be broadcast live on the Village's cable television station to all households in the Village on Wednesday, December 16, at 10:00 am.
